

Emergency **EXIT** Doors Upgrade

Droplex Industrial Systems recently replaced existing non-compliant emergency exit doors with compliant Fire Resistant and Smoke Stopping emergency exit doors.

Client: Kenya Shell Ltd
Project site: Laiboni Centre along Lenana Rd, Nairobi
Completion period: 3 days
Accomplishments: Fire Rated Emergency Exit doors on each floor that meet Emergency Exit Requirements
 New Emergency Exit doors address fire safety and smoke inhalation concerns
Employees are now protected from Fire and smoke for 1 hour, allowing for rescue.

Non Compliant Emergency Exit Doors

- Not Fire Resistant
- No smoke stopping seal
- No Closer
- No window

Compliant Emergency Exit Doors

- Fire Resistant - Rated 1hr
- Smoke Stopping
- Self latching panic opening device with Closer
- See through window – Fire Rated
- Loud alarm – prevents unauthorized opening

Emergency Exits

Droplex Industrial Systems is an Industrial Engineering company that develops, improves and implements integrated systems dealing with Energy, Safety, Equipment and Industrial Processes.
